1. What are your core values and beliefs?

Ans: Honesty and passion are the main basis of my life which I believe. Honesty shows the beautiful characters of a person. On the other hand, being devoted to a job shows the responsibility of a person. Responsibility and honesty are the same source. I think these two qualities help people to go a long way.

2. What are your goals and aspirations?

Ans: As a developer I would like to enrich my technical knowledge because in today's world technology knowledge helps people to rise a lot and I want to use this technology knowledge to transform myself into the manpower of a nation.

3. What are the first steps you will take to build your personal brand?

Ans: First I need to find some unique qualities in myself that make me stand out from the rest. Then I need to constantly showcase my other work to the public, but for this I need a large community through which I can present myself.

4. How does personal branding differ from self-promotion, and why is this distinction important?

Ans:
Personal Branding: Personal Branding process to develop a unique self-identity. Personal branding focused on building reputation for a long time.

Self-Promotion: Self-Promotion is focused on showcasing achievement, skills, and success.

5. What are you most proud of?

Ans: After six months of hard work on the web development journey I have achieved a reward and I am very proud of this achievement.
